**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David Emory on 4/21/2006.

The application has been amended as follows:

With respect to amended claim 7, please delete from line 14 after passage ",", and enter ---.

***Allowable Subject Matter***

Claims 1-11 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1 and 11 are found to be allowable over the prior art because the prior art does not disclose or suggest the claimed "a bottom edge that is adjacent to the first passage; a second passage formed around the shunt plate to bypass the first passage; and an air flow rate measuring element disposed in the second passage, wherein the bottom edge of the shunt plate is located on or above an imaginary line parallel to the axis of the intake passage and passing through an uppermost edge of the air inlet." in combination with the remaining claim steps as set forth in claims 1 and 11.

Claim 7 is found to be allowable over the prior art because the prior art does not disclose or suggest the claimed "a plate-like shunt plate having a plate-like portion extending in a direction that crosses an axis of the intake passage and having an first inclined surface on an upstream side of the plate like portion and a second inclined surface on a downstream side of the plate-like portion wherein both the first and second inclined portions are inclined toward the downstream side of the first passage, a second passage formed around the shunt plate to bypass the first passage; and an air flow rate measuring element disposed in the second passage" in combination with the remaining claim steps as set forth in claim 7.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***
